

CENTRAL DRIVE REHABILITATION PROJECT TO START MID-JULY

The Road Commission for Oakland County (RCOC), in partnership with Orion Township, will resurface Central Drive from Indianwood Road to the Lake Orion Village limits. Work is expected to begin approximately July 29.

PROJECT DETAILS

The project will involve pulverizing the existing road surface to serve as a base for four inches of new asphalt paving. Some guardrail will be replaced, and there will be minor drainage improvements.

Schedule and IMPACT ON TRAFFIC

After the project's mid-July start, all lanes of the road are expected to be open by September with landscaping installed by Sept. 20. Final closeout of the project, including establishment of the grass, will be June 1, 2020.

The road will remain open to traffic throughout the project, with at least one lane open in each

direction at all times, but there will be lane closures.

COST & FUNDING

The project is expected to cost approximately \$548,000. It is being paid for with \$363,000 from an Orion Township administered special property-tax assessment district (SAD) and \$185,000 shared evenly by the township, RCOC and Oakland County general government (through the Tri-Party Program). The project design and construction management services are being provided by RCOC.

CONTRACTOR

Asphalt Specialists Inc., of Pontiac, is the contractor for the project.
