

ROAD COMMISSION FOR OAKLAND COUNTY

SPECIAL PROVISION
FOR
HMA BASE CRUSHING AND SHAPING

RCOC/DESIGN:CJ/JO

PAGE 1 OF 2

RCOC20SP305A
ORG:03-27-21

a. Description

This work shall be done in accordance with section 305 of the *Michigan Department of Transportation 2020 Standard Specifications for Construction*, except as herein modified. This work shall consist of pulverizing and crushing existing HMA pavements up to 15-inch thickness over aggregate bases.

b. Materials

All work must be in accordance with the contract documents.

c. Construction

All work must be in accordance with the contract documents.

If no additional aggregate base is specified on the project or in one or more station ranges shown on the plans, then grading, shaping and compacting the pulverized material shall be performed and paid for as specified under the Special Provision elsewhere in this proposal for Aggregate Base, Conditioning, RCOC. Loading, hauling and either placing surplus pulverized material on the project, or disposing surplus pulverized material off the project shall be included in the payment for Aggregate Base, Conditioning, RCOC.

If additional aggregate base is specified on the project, or in one or more station ranges shown on the plans, for widening and/or grade changing, then grading, shaping and compacting the pulverized material shall be performed and paid for in conjunction with, and as specified under, that for the additional aggregate base pay item. If additional aggregate base is specified for widening and/or grade changing, then payment for loading, hauling and placing on the project surplus pulverized base material meeting the additional base material specifications will be included in the measurement and payment quantity for the additional aggregate base item. Disposing of the project surplus pulverized material and/or that not meeting the additional aggregate base specification will not be paid for separately. The additional aggregate base pay item will be as shown on the plans and as specified in a separate Special Provision in this proposal.

d. Measurement and Payment

The completed work, as described, will be measured and paid for at the contract unit price using the following pay items:

Pay Item	Pay Unit
HMA Base Crushing and Shaping, RCOC.....	Square Yard

HMA Base Crushing and Shaping, RCOC includes all equipment and labor necessary to crush or pulverize the existing pavement as specified above. No adjustment in contract unit price will be allowed based on irregularities encountered in the thickness or type of materials encountered in the existing roadway surface. Payment for this item will be measured as shown on the typical sections and/or details as shown in the Plans.
