**REINFORCED TURF DRIVEWAY**

RCOC/DESIGN:AP/JOB

PAGE 1 OF 1

RCOC20SP816B

ORG:04-05-21

REV:05-23-25

**a. Description**

This work consists of constructing a porous reinforced grass driveway at the locations specified on the plans. Complete this work in accordance with *Michigan Department of Transportation 2020 Standard Specifications for Construction*, except as modified in the details on the plans and in this special provision.

**b. Submittals**

Submit manufacturer’s drawings and technical data including seed & fertilizer mixtures, proposed cross section including aggregate base materials, stabilization apparatus type, size, layout, anchoring methods, manufacturer’s installation instructions, and any other products requested by the Engineer. Obtain approval from the Engineer prior to beginning work. All manufactured materials shall be produced meeting ISO 9001:2000 quality standards.

**c. Materials**

Provide materials per manufacturer’s recommendations.

Use a single manufacturer’s complete system for products and/or materials.

An example of the desired product is (Geosystems Geoblock 2 porous pavement system) or approved equal.

Materials will need to support grass growth as well as support passes of single axle loadings up to 32,000 LBS with gross vehicle loading up to 80,000 LBS.

**d. Measurement and Payment**

The completed work, as described, will be measured and paid for at the contract unit price using the following pay item:

<b>Pay Item</b>	<b>Pay Unit</b>
Reinf Turf Driveway.....	Square Yard

**Reinf Turf Driveway** includes all labor, equipment, and materials necessary for hauling, preparation, placement, finishing, watering, and establishing turf. It will be measured and paid for by area in square yards.
