4/22/2021

The following contractor material disposal form is included as part of this project. The Contractor will be provided a copy, which is to be filled out and submitted to the project engineer at the pre-construction meeting. The project will begin only when this form is submitted to the project engineer at the pre-construction meeting.

The Contractor shall follow local rules and regulations for Soil Erosion and Sedimentation Control for all materials that are disposed of off the project site.
